

Angel "I WON" De Fazio
2nd Public Comments
September 26, 2016

August 31st, procedural order #1, 16-06011, page 9, paragraph 12:
"...therefore, may not be useful in the traditional, 8.5 x 11 –inch size format that NAC 703.134 and 703.136 require. However to ensure transparency, NV Energy shall submit a cover letter to the Commission if it deviates from NAC 703.132 when it submits information responsive to this Order. This cover letter shall address the substance of the information being provided to the Commission and, if the information is confidential, the information required under NAC 703.5274(2)."

So if its submitted under a different format, how is the public suppose to have access to it, as that paragraph clearly references TRANSPARENCY.

How will you be providing this public information, that doesn't fit under the normal submission practices?

Do you plan on making it available under the open records request, since you are feigning transparency? Well, we wonder, if this filing really is transparent, seems based on your published info sheet, only agenda materials are available at no charge, so what's up with this?

Apparently, we are going to be forced to pay your extortion fees, for it will be accessible.

Make up our minds, either we have full transparency and accessibility or we have extortion...

Can't have your cake and eat it too.
