Electromagnetic Frequency Spectrum

Non-Ionizing radiation

Ionizing radiation

All Living Things are Bio-Electrical Beings

Since we are in the Universe,
we obey these laws as well

Heart
2 Hz

Brain
1-30 Hz

Body
7.83 Hz

Electrocardiogram

ECG or EKG

One tends not to think of people being “bio-electric” beings, but ECGs and EKGs are used to measure the heart’s electrical impulses - which are extremely weak signals - meaning that they are at risk from any stronger electrical signals interfering with the bodies own “natural” frequencies.

Natural Frequencies:

0 – 30 Hz

Man-made 'Harmful' Frequencies:

35 – 500 Hz

ELF (60 Hz) and Microwave Frequencies pulsed at 60 Hz have same biological effect on growing cells, incidence of certain cancers, abnormalities in embryos, central nervous system, learning ability, etc.

1932 – “Microwave Sickness”

(To-day’s Electro-hypersensitivity or “EHS”)

First reported by Germany, symptoms include:

headaches, dizziness, disrupted sleep, insomnia, fatigue, nausea, heart palpitations, memory loss, tinnitus, skin rashes, muscle and joint pain, leg and foot pain, tingling, irritability, numbness, nosebleeds, depression, anxiety, etc.

All wireless devices emit harmful non-thermal RADIATION

AM & FM radio towers, satellite TV, Amateur Radio, airport radars, police radars, Microwave ovens, cell phones, cell phone towers, iPhones, smart phones, cordless phones, iPads, tablets, Wi-Fi routers (2.4 or 5 GHz) home security systems, baby monitors, laptops, garage door openers, Bluetooth, remote control units, GPS satellites, TETRA Networks (BC Hydro 409-430 MHz: 17.6 Hz), Wi-Max towers (2.3, 2.5, 3.5, 5.8 MHz),

(Cont'd)

Wireless Devices (Cont'd)

military & scientific satellites, motion detectors, Wi-Fi hotspots: cities, towns, buildings, school buses, Greyhound buses, VIA Rail trains, planes, restaurants), body area networks (BANs), Car Wi-Fi; RFIDs (900 MHz), X-rays, CT Scans, MRIs, Pagers, some Copiers, Motion Detectors, Wii & Wii U, and Xbox 360 games. Car-collision avoidance, Smart Meters, Meshed-grid networks, radar guns, etc.

1950s – Microwave Sickness (“EHS”)

Clinics in several cities in the Soviet Union and E. Europe studied and treated thousands of workers suffering from new occupational disease: “radio wave sickness.” The workers manufactured, inspected, repaired or operated M/W equipment.

Some worked at radar, radio or TV stations or telephone companies. Others operated RF heaters & sealers being used in industries using technology developed during World War II.

**U.S. Government /

- Collusion
- Conspiracy
- Corruption**

The Writer's Assertion

“Western Alliance” countries (U.K., Canada, Australia and New Zealand) led by a corrupt U.S. government/military/industrial complex, are aggressively pushing wireless technology globally for military purposes and for unprecedented economic gain. Yet the Council of Europe (47 countries, 800-million people) abandoned in 2011 today's ‘Western-sponsored’ dangerously high radiation ‘Safety’ limits in order to protect its people. Europeans are now urged to adopt the “Precautionary Principle” but ‘Western Alliance’ countries refuse to protect their citizens.

Captain (retired) J.G. Flynn, CD (Electronic Warfare Specialist)

1933 – Russian Research

Russia has systematically studied electromagnetic bio-effects on all life forms: plants, animals & people since 1933.

Found harmful effects from even the weakest radiation intensities - depended greatly on frequency used and cumulative effect.

Caused the Russians to drastically reduce their own safety levels by a factor of 1,000!

[Cellular Radiation Is This Our Next Titanic? Pp 77

U.S Embassy – Moscow ('53–'76)

(6-8 Hours a Day, 5 Days Week)

Was irradiated with M/W frequencies at intensities of 0.1 to $24\mu\text{W}/\text{cm}^2$, ie., about 1,000 times lower than the US 'standard' of $10\text{ mW}/\text{cm}^2$.

- 2 ambassadors died of cancer;
- 3rd developed leukemia-like blood disease & bleeding eyes & eventually died from it;
- At least 16 women developed breast cancer;
- Many other staff suffered adverse health effects, e.g. immune system disorders, high white blood cell counts, chromosomal breaks, chronic fatigue, cataracts, etc.
- U.S. KNEW but DIDN'T TELL embassy for about 15 years! www.aseq-ehaq.ca/ma_emfs/pdf/studies/Radio_frequency_si...

1953 – Exposure Limits and Fear of Lawsuits

Participants at the Bethesda, Maryland navy conference understood that once a standard was set lawsuits could become an issue. ***“The simplest way to avoid lawsuits would be to resist setting standards below existing exposure levels,*** but resisting lowering standards for legal reasons would again bring nonscientific pressure to bear on standard setting.

[The Microwave Debate, Nicholas H. Steneck, pp 47](#)

1954 – Radiation Sterility and Baldness

Bell Laboratories, alarmed by reports of sterility and baldness among its own workers as well as military radar personnel, suggested a safety level of 100 microwatts, a hundred times less than the USA Limit of $10\text{mW}/\text{cm}^2$ (see Becker & Selden, 1984).

<http://www.chronicexposure.org/occupational.html>

1956 – US Dept. of Defense (DOD)

Directed the **U.S. Army, Navy & Air Force** to investigate the biological effects of exposure to Radio frequency / Microwave (RF/MW) radiation. In 1957 they reported many implications: **serious damage to the eye, evidence it can cause cancer, damage to major organs and disruption of important biological processes.** Pulsed radiation appears to be more harmful than non-pulsed radiation.

[Radiofrequency/microwave radiation biological effects and safety standards: A review.](#)

1958 – Power Struggle in USA

Dept. of Defense had given responsibility for ***“standardization of EMR hazards to personnel”*** to the US Air Force, but U.S. Navy’s Bureau of Ships was assigned ***“standardization responsibility for electromagnetic hazards common to personnel, fuel and equipment,”*** which upset IEEE and ANSI, respectively.

1960 – RF/MW Radiation Central Nervous System

Soviet scientists report several CNS disorders among 525 workers exposed to RF/MW radiation: hypotension, slower than normal heart rates, increased histamine content of the blood, increases in activity of the thyroid gland, headaches, irritability, increased fatigue, etc.

The U.S. Dept. of Health, Education & Welfare, NIOSH Contract No. 210-76-0145, March 1978

1961 - President Eisenhower's concern about Military-Industrial Complex and Democracy

“In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. Only an alert and knowledgeable citizenry can ... (protect democracy)

1965 – Exposure Limits Czechoslovakia vs USA

The safe exposure limit set for the general public in Czechoslovakia was in the range of $1 \mu\text{W}/\text{cm}^2$ - a **thousand times lower** than that in the United States ($10 \text{ mW}/\text{cm}^2$) !

<http://www.i-sis.org.uk/FOI3.php>

1967 - Project Pandora

“In Sept. 1967, the CIA’s Jo Johnston observed in a memo summarizing the early results of Pandora, *“For the record it should be noted that all the positive findings of Project Pandora [Pandora] were achieved **one half an order of magnitude below** the accepted U.S. standard for safe exposure.”*

[The Microwave Debate, Nicholas H. Steneck, pp 117](#)

1968 - Industry Lies to U.S. Congress about EMR

Raytheon's Microwave Division informed Congress there was no problem to solve, that studies concluded that:

- 1) The biological effects of microwave energy are thermal.
- 2) The effects are non-cumulative.
- 3) Man has a built-in alarm system coupled with his threshold of pain that protects him from thermal injury.”

1968 - Dr. Herman Schwan Disagrees with Raytheon

Dr. Schwan, who established USA's Exposure Limit of 10 mW/cm², disagreed with Raytheon saying there was not sufficient evidence to limit RF bioeffects solely to ***thermal*** energy. Nor would he discount possibility of ***genetic*** and ***cumulative*** effects completely. Said more studies were needed.

[The Microwave Debate, Nicholas H. Steneck, pp 125](#)

1968 – President Lyndon Johnson’s State of the Union Address

He pledged to keep Americans “safe in their homes and at work.” Part of the new deal consumers were being promised was “*protection against hazardous radiation from TV sets and other electronic equipment.*” This became law when he signed the Radiation Control for Health and Safety Act. on Oct. 18, 1968.

New York Times, January 18, 1968 *Public Law 90-602, Oct 18, 1968*

1970s – RF Bioeffects Research

Throughout the 70s approximately two of every three research dollars spent on RF bio-effects research can be traced to the ***navy, air force or army.***

With this support inevitably came control.

'70's - Modulated Microwave Signals are Dangerous!

Researchers had known since the early '70s that a properly modulated signal could interfere with normal brain activity.

1971 – Naval Medical Research Institute (NMRI)

The U.S. military had by 1971 compiled 2300 reports on the biological responses to radio and microwave frequency (RF/MW) radiation - - which paid particular attention to the effects on man of **non-ionizing** radiation at these frequencies.

Project Pandora (1954-1971)

Eldon Byrd, a scientist for the Naval Surface Weapons Centre, USN, said about M/W radiation in 1986: **'We can alter the behaviour of tissues, cells, organs and whole organisms.... you can cause up to six times higher foetus mortality and birth defects in laboratory animals, and it is known how to induce malignant diseases in human cells ... and how to cure them...'**

<http://www.youtube.com/watch?v=xehJzyttZr8>

1974 – RF/MW Radiation and Cardiovascular Disease

Soviet study of 100 patients exposed to radiation for periods ranging 5-15 years concluded it is a **PROBABLE** cause of cardio problems. A smaller group exposed for shorter periods also experienced cardio irregularities.

1977 – **Microwaves: Their Deadly Risk ... and the Cover-up**

“The Zapping of America” Paul Brodeur (1977)

1977 – CBS's "60 Minutes" Electronic Smog Blanketing America

Host Mike Wallace interviewed U.S. ophthalmologist, Dr. Milton Zaret and spent 20 minutes alerting the public to the possible dangers of microwaves. Dr. Zaret was one of the first scientists to warn of the harmful effects of microwave radiation, especially to eyes.

[The Microwave Debate, Nicholas H. Steneck pp 190.](#)

Mass Media and the Public

“What must the press do to get the truth out to the public about low-level radiation? Well we simply have to keep digging; check, double-check, and if possible triple-check every press release, tip, and press briefing; remain always suspicious of authority, and never lose sight of that old Latin admonition, **Illigitiati non carborundum** – don’t let the bastards wear you down”

[William Hines, Annals of the New York Academy of Sciences \(1979\)](#)

Public have deliberately been deceived and kept ignorant

The effects of low-level exposure to RF radiation that have been withheld from the public extend from heart disease and cataracts to birth defects and cancer. ***Information about such hazards has been withheld to protect the military and its industrial contractors from the economic burden of lower standards.***

1985 - The Power of the Telecom and TV Industry

Dr. Robert O. Becker and Brian Selden:

“Our survival depends on the ability of upright scientists and other people of goodwill to break the military-industrial death grip on our policy-making institutions.”

(Becker, RO, and Selden, G, The Body Electric: Electromagnetism and the Foundation of Life, (New York: Harper) 1985, p.329.)

1994 - Microwave Weapons

Microwave Research Department of the Walter Reed Army Institute of Research states,

"Microwave energy in the range

1 to 5 GHz, a militarily important range,

penetrates all organ systems of the body and thus puts all organ systems at risk." **Yet these**

are the very frequencies used in today's devices, including baby monitors! Effects on the central nervous system are considered very important.

Yet Health Canada and its four other 'Western Alliance' countries protect **ONLY** against brief exposures to **thermal** radiation!

<http://www.youtube.com/watch?v=MCe0rqgyBcw&feature=youtu.be>

1920s – Athermal (Non-thermal) Radiation

The first major debates on possible existence of *non-thermal* effects occurred in late **1920s**. Also, in **1926**, Dr. J.W. Schereschewsky, a surgeon with U.S. Public Health Service (later an associate in preventative medicine and hygiene at the Harvard Medical School) determined that RF bioeffects were also *frequency dependent!* (25% of mice irradiated had cancers cured!).

Health Canada and IEEE/ICES Conflict of Interest

Dr. Art Thansandote, Health Canada's Senior Radiation Protection Scientists is, and **has been for many years**, Co-Chairman of ICES' Sub-Committee 4, which is responsible for establishing **IEEE's (i.e., the USA's) egregiously high radiation Exposure Limits, which happen to be similar to Canada's!**

[http://www.ices-emfsafety.org/documents/publications/ICES Annual Report 2011-12.pdf](http://www.ices-emfsafety.org/documents/publications/ICES%20Annual%20Report%202011-12.pdf)

Dr. Michael Repacholi

- Worked very closely with **Dr. Maria Stuchly** in establishing Canada's **Safety Code 6's** radiation Exposure Limits;
- Was instrumental in establishing **WHO's** (the World Health Organization's) radiation Exposure Limits;
- Was instrumental in establishing **ICNIRP** (the International Commission on Non-Ionizing Radiation Protection) radiation Exposure Limits – all of which are virtually identical and recognize only thermal radiation!

Dr. Michael Repacholi

- '71-'83) Health & Welfare Canada:
- '80) Ph.D. Biology: U of Ottawa
- '71-'83) Radiation Protection Bureau.
- '75-'83) Head, Non-Ionizing Radiation Program.
- '78) Co-authored Safety Code 6 Exposure Limits with **Prof. Maria Stuchly**
- '83–06) **W.H.O.** Led 10-year study on EMR
- '92-now) **ICNIRP** – inaugural Chairman, now Chairman Emeritus and a consultant to industry!

Dr. Maria Stuchly (1978-2004)

- '76-'91: Health & Welfare Canada: She Co-authored Safety Code 6 and other papers with **Dr. Michael Repacholi**;
- Worked with **Dr. Daniel Krewski**;
- Was at U Vic 2002-04 (now retired)
- In 2003, co-authored paper with **Dr. Repacholi** on bio-effects of non-ionizing EMR (Safety Code 6) and with **Dr. William Bailey** of Exponent Inc.
- Had close historical ties to industry.

CWTA

Canadian Wireless and Telecommunications Association

Pres. & CEO Is bilingual **Bernard Lord, QC, ONB**, former 2-time Premier of N.B. with unparalleled connections in all three senior levels of government and a potential heir-apparent to PM Stephen Harper. **No wonder Wi-Fi is being pushed into public schools and communities everywhere, Smart Meters forced onto all dwellings, and cell phone use encouraged.**

CWTA and McLaughlin Research Centre

Canadian Wireless Telecommunications Association's former President **Roger Poirier** still manages McLaughlin Research Centre's projects. CBC Marketplace exposed that the wireless industry, **CWTA**, funds both the research and salary of **Dr. Krewski** who promotes that Wi-Fi is “safe”.

<http://www.cbc.ca/marketplace/pre-2007/files/health/iarc/pagetwo.html>

Prof. Daniel Krewski

- Since '98: is Director of **R. Samuel McLaughlin Centre**, Ottawa, which was founded & funded by 'industry.'
- His salary is paid, in part at least, by industry, as are the Centre's studies;
- '93 – worked with **Repacholi** at U. of O.
- '98 – Health & Welfare Canada: Dir. Risk Mgmt, Health Protection Branch;
- '01-'03: Collaborated with **Dr. Stuchly** on reports.

Corruption in WHO

Russian research done in 1960-1985, with real control groups, in real, healthy environments, without the negative influence of the cell-phone industry (such as the publication of the fictional scientific results, disregarding the danger of the radiation, censorship of inconvenient research results), should be considered and added to this project as No. 1 source (reference study) or at least should be included in the WHO's database.

<http://www.iddd.de/umtsno/puzen2.html>

Corruption in WHO

Russian scientists conducted more than 1500 epidemiological and human laboratory studies during the Soviet Union era which are not even in the WHO database (IEEE Study Database or EMF Studies Database). Today, special industries dismiss Russian results in RF (radiofrequencies) research as nonsense science.

<http://www.iddd.de/umtsno/puzen2.htm>

Conflict of Interest in U.K.'s own Health Protection Agency

Prof. Andrew Swerdlow chaired HPA's review panel on safety of wireless technologies even though he and his wife are shareholders of multi telecom companies!

1958 – Compare USA and USSR “Safe Exposure Levels”

USA's limit of **10 mW/cm²** applied to workers for just **30 minutes** exposure!

One thousand times lower/safer, **USSR's** limit of **0.01 mW/cm²** (or **10 μW/cm²**) applied to **continuous** exposure for an **eight hour day!**

USSR workers could be exposed to levels as high as **1mW/cm²** for **15-20 minutes** provided suitable measures were taken.”

1967 – Pulsed microwave more dangerous than continuous wave (CW)

1971 – U.S. Naval Medical Research Institute

Researched 2300 studies listing all illnesses
resulting from thermal and non thermal effects of
Radio / Microwave Frequency radiation.

Paid particular attention to the effects on man of
non-ionizing radiation.

1971 – Warning to U.S. White House

The U.S. President's own Management Advisory Council warned: "power levels in and around American cities, airports and homes may already be biologically significant." The population at risk "may well be the entire population." The consequences of undervaluing or misjudging the biological effects of long-term, low-level exposure could become a critical problem for the public health, especially if genetic effects are involved.

1973 – Microwave Radiation – A Potential Threat to Health

Research by NRC (National Research Council) Canada and Queen's University produced concerns for the long term, low-intensity *non-thermal* microwave radiation that will result from uncontrolled proliferation of MW devices.

<http://www.emf-risks.com/2013/09/1973-report-researching-effects-of.html>

1973 - Radiowave Sickness or Microwave Sickness or Electro-Hypersensitivity or “EHS”

Excerpts of reports from the **Warsaw Conference of 1973** documented the diagnosis of such a disease in other countries. Yet Health Canada and its Western Alliance partners say there is no such thing!

[The Microwave Debate, Nicholas H. Steneck pp 221](#)

1975 – U.S. Defense Intelligence Agency

Warned its own personnel of the risks from low level EMR including: microwave sickness (flu-like symptoms, depression, suicidal tendencies) to cancers and leukemia

www.wirelesswatchblog.org/wp-content/uploads/2001/11/20...

1976 - **Sworn to Silence** **About non-thermal EMR**

U.S. Government advised its western allies not to talk about non-thermal effects of microwave radiation. If it did not heat the body, they were not to talk about it.

Ref. Barrie Trower

1979 – NIOSH & OSHA Warning

(National Institute Occupational Safety & Health, and Occupational Safety Health Agency)

Both agencies believe there is sufficient evidence of harmful non-thermal effects to humans, they recommend that PRECAUTIONARY measures be instituted to minimize the risk to workers from unwarranted exposure to RF energy”

www.cdc.gov/niosh/docs/80-107/

1982 – New York Supreme Court Rules on “Microwave or Radiowave Sickness”

The court ruled **Dr. Milton Zaret** provided the board with ample evidence of the existence of the disease which, today, is known as **Electro-hypersensitivity or “EHS.”**

1986 - Understanding Microwave Radiation

Following the 1986 Chernobyl incident it was found that ***long-term, continuous, low-level*** radiation of all types was as dangerous as high level doses of radiation!

<http://www.planningsanity.co.uk/reports/trower.htm>

1990 – U.S. EPA

Environmental Protection Agency

EPA'S "Draft" report recommended EMR be classified 2B "Possible" carcinogen. 33 of 35 international research studies conclusively linked EMR to brain tumors, leukemia & other forms of cancer, etc., but Pres. H.W. Bush's White House quashed recommendation due to pressure from *US Military, Telecom/wireless Industries*.

- EPA was forbidden to research EMR further.
- 1996 – US Telecommunications Act
- 1996 - EPA had funding cut drastically!
- 1996 - EMR was re-assigned to the FCC!

1992 – ICNIRP was born

*The International Commission on Non-Ionizing Radiation Protection claims to be an independent scientific organization responsible for providing guidance and advice on the health hazards of non-ionizing radiation exposure, yet considers only the **THERMAL** effects of EMR as harmful.*

“If the radiation does not heat the skin, it can’t be harmful!”

1993 - U.S. FDA Food & Drug Administration

Data “Strongly Suggest” microwaves can promote cancer. FDA biologists concluded that the available data “strongly suggest” that M/W can “accelerate the development of cancer.”

(obtained by Microwave News under the Freedom of Information Act.)

<http://microwavenews.com/news/backissues/j-f03issue.pdf>

1995 – CORRUPTION

EPA's own research caused them concern about EMR/F – wanted to establish guidelines to protect the public, but the U.S. Senate Committee on Appropriations stated: “... **EPA should not engage in [electromagnetic field] activities!**”

2001 - Corruption and Greed

“Industry is placing its absolute need to sell products above the health and well-being of its own customers. The practice of producing such products can only be viewed as *predatory*.”

http://www.icems.eu/docs/Robert_C_Kane.pdf

2002 - Conflict of Interest IARC / WHO

Then IARC Director, Lorenzo Tomatis plus 30 other scientists from around the world went public claiming IARC had let industry get too involved in the decision-making as to what is or is not cancerous - referring to the downgrading of DEHP, which compromises public health, and that scientific papers showing a possible link to cancer had been "ignored or intentionally suppressed."

2002 - FCC sets M/W limits >10,000 times HIGHER than levels known to cause illness! [Remember: FCC are politically-appointed non-scientists]

FCC.... Set public Exposure Limits for M/W radiation at levels at least 10,000 times higher than levels which, according to the EPA, were causing illnesses all over the world!

<http://lifeenergies.com/he-emr/>

2002 - Freiburger Appeal

Signed by more than **6,000 doctors.**

lists 13 severe chronic illnesses & various disorders involving: behaviour, blood, heart, cancers, tinnitus, migraines, susceptibility to infections and sleeplessness.

All ascribed to **pulsed M/W** from mobile communications devices.

<http://omega/twoday.net/stories/555926/>

**2003 - Health Canada
is urged to lower
Exposure Limits drastically**

Toronto's Public Health Officer

2005 – Low Level Microwaves are Dangerous!

- The Nobel Prize winning **Irish Doctors Ass'n** listed **70 research papers** showing the dangers from low level microwaves.
- **Dr. Santini** listed **20 similar studies**,
- The **EM. Radiation Research Trust** listed **9 studies**,
- **Dr. Blackwell** listed **6 similar studies** in his report.

Fifty-five (55) years after the Soviet Union!

2005 - Corruption in W.H.O.

On July 5, 2005, it was published that **Dr. Michael Repacholi** – Coordinator of the WHO's Radiation & Environmental Health Unit- *receives \$150,000 a year (via Royal Adelaide Hospital, S.A.) from the cellular phone industry with additional money for meetings and travels.*

2007 – BioInitiative Report

Twenty-five scientists, doctors and public health experts from 5 countries released a 650-page document with over 2,000 studies linking RF and EMR to cancer, Alzheimer's disease, DNA damage, immune system dysfunction, cellular damage and tissue reduction. [Inferred Health Canada's Exposure Limits were 10,000 times too high!]

2007 – European Parliament

European Environment Agency called on its
27 Member States (500-million people) to:
***“protect the public more effectively by
taking ‘Appropriate, precautionary and

2007 - EMR Suppresses Melatonin

Produced by the Pineal gland, melatonin is a powerful cancer-fighting hormone produced in the body at night. Sleeping in a room surrounded by our favourite devices – cordless phone, cell phone, digital clock, CD/radio player, computer and TV – can seriously suppress melatonin production.

["Electropollution, Hormones and Cancer" www.nexusmagazine.com](http://www.nexusmagazine.com)

Aug-Sept.2007

EMR, Melatonin and Estrogen

One of melatonin's most important functions is to release estrogen, which suppresses the development of breast cancers - 70% of which are estrogen sensitive. When EMR inhibits the release of melatonin the activity of one of the body's most protective hormones is lost.

Non-industry Scientists Say

Prof. Yurij Grigoriev, Chairman of RNCNIRP:
“Man conquered the Black Plague, but now he’s created EMF pollution”

The International Doctors’ Appeal (more than 1,000 doctors): “This is the greatest biomedical experiment in human history ever.”

Dr. Robert O. Becker, Two-time Nobel Nominee said in 2000: “The greatest polluting element in Earth’s environment is the proliferation of EMF.”

Non-industry Scientists (Cont'd)

The 2011 Seletun Scientific Panel: “Global population is at risk. Reduce Exposure Limits 1,000 to 10,000 times.”

Dr. Dietrich Klinghardt: “...exposure to microwave and EMF is significantly harmful to all health and life itself.”

Dr. George Carlo: “There’s a major health crisis coming, probably already underway ... cancers, learning disabilities, ADD, Autism, Alzheimer’s, Parkinson’s, psychological/behavioral problems.”

Non Industry Scientists (Cont'd)

Dr. Gerard Hyland, a physicist, twice nominated for the Nobel Prize in Medicine, says, "Existing safety guidelines for cell phone towers are completely inadequate ... Quite justifiably, the public remains skeptical of attempts by governments and industry to reassure them that all is well, particularly given the unethical way in which they often operate symbiotically so as to promote their own vested interests."

2010 - Corruption

In April 2010, eminent researchers: **Olle Johansson** (Sweden), **Dr. Annie Sasco** (France), **Dr. Dimitris Panagopoulos** (Greece) and **Dr. Andrew Goldsworthy** (U.K.) took part in conference before Canada's House of Commons Standing Committee on Health (HESA) outlining the dangers of low level EMR from cell phones, masts and wi-fi with reproductive decreases from cell phone EMR. All were subsequently censured/punished in some way by their employers.

2012: The Breast Cancer Risk Nobody Talks About – EMR/EMF

Both Powerline (60 Hz) EMFs and radio / microwave electro-magnetic radiation (EMR) significantly disrupt melatonin, convincingly proving ***“the negative effect of EMFs on the anti-estrogenic effect of melatonin in breast cancer cells,”*** German scientists find.

2013 – Children are at Risk!

On December 12, 2012, the **American Academy of Pediatrics** sent a letter to the U.S. Federal Communications Commission (FCC) warning of dangers to children because of current radiation Exposure Limits. New standards are needed!

2013 - EHS in Sweden

EHS is considered a *physical impairment* and is recognized as a *disability*. Local governments grant support to individuals with EHS. *Employees with EHS have a right to support from their employers* so as to enable them to work despite this impairment. *Some hospitals in Sweden provide rooms with low EMF exposure.*

Failings of Provincial Chief Medical Officers

Given that Safety Code 6 applies to “all individuals working at, or visiting, federally regulated sites” it therefore DOES NOT necessarily apply to provincial jurisdictions. Consequently, provincial CMO’s who blindly adopt Safety Code 6 are derelict in their duty to protect the health and well-fare of their constituents!

Effects of Radiation are Cumulative

The effects of radiation are cumulative, in both senses: 1) The meters add to the cumulative radiation as sources proliferate, and 2) microwave radiation is cumulative in sense of increasing the body's sensitivity over time.

Research shows that test subjects don't always recover completely and that subsequent exposures can cause effects at lower levels.

Evidence that EMR and EMF are harmful to all life forms

A body of more than **6,000 studies** has been accumulated since the **1930s** producing an overwhelming conclusion that exposure to microwave and electromagnetic fields is significantly harmful to all life and health itself.

2014 – 700 MHz Auction

Industry Canada reaped \$5.3 Billion by auctioning off a portion of 700 MHz band (frequencies which penetrate deep into underground parking garages, elevator shafts etc.) to telecom companies. In 2015 they'll auction off portions of 2.5 GHz band for more billions. ***How can Industry Canada possibly be concerned about the public when it makes so much money from Industry? Clearly, the public comes 2nd.***

EMR - The Nuremberg Code

In essence, says: a person being experimented upon must first:

- give their consent - free from *force, fraud, deceit, duress or coercion*;
- have sufficient knowledge of *what is happening*; and
- know the possible effects upon one's health.

It is the responsibility of the electric utility to ensure the public are fully aware of and understand what is happening to them and what, if any, risks to their health might be involved.

EMR is GENOCIDE

“This industry and those parts of governments which are encouraging them will be responsible for killing more people than all those killed in the entire 2nd World War! This will be the worst genocide this planet has ever known – not just people, but plants and animals. The U.K, U.S., Canadian and Australian governments are lying to the public to protect themselves against lawsuits and to make money for industry!”

Cell Phones

- Billion in world (2012)
- Scientists have now studied EMR for 40 yrs.
- Know latency period is 10 – 30 yrs.
- Brain cancers increased 50% in 10 yr period 1999-2009!
- Blackberry advises users: keep phone 0.98" from head Or any part of body!
- Apple advises users: keep phone 5/8" from head ... or any part of body!
- Motorola advises users; Keep phone 1" from body and don't point phone at any part of body!
- Don't use cell phone inside vehicles - more radiation!
- Child's head absorbs 5X more radiation than an adult's.

1993 – Industry's own studies prove cell phones are dangerous!

The telecom industry's own six-year, \$25 million study to prove cell phones are safe - proved just the opposite:

- 1) Federal microwave exposure standards are dangerously high!
- 2) Cell damage and tumors can be easily induced in the lab at about one-third of the FCC's exposure guidelines!

1997 - Cell Phone Warning

This is the first generation ever, in the entire history of humankind, which holds a powerful microwave transmitter up to its head, on a regular basis, hour after hour, day after day. Excessive telephoning on mobiles is going to have serious consequences. In the course of the next few years, health problems could arise, especially leukemia and brain tumors.

2004 – Radio Frequencies are Dangerous!

There are well over 10,000 scientific reports from many countries around the world, many of them dating back to the 1950's, verifying that high frequency energy shoots straight into the brain, is absorbed by the brain cells, heats them up and damages the DNA.

2009 - Corruption

Governments and Industry

German government made > 100 Billion DM (German Marks) selling UMTS (3G) cell phone licenses to telecom companies, who need to recover their investment and make profits. Successful nationwide lawsuits would interfere with this; hence, government and Industry set high Exposure Limits which can't be justified medically. In case of doubt a justice committed to corporate interests is appointed.

Cell Phone – Russian Roulette!

2011 – Council of Europe Notes “Conflict of Interest”

33% of studies funded by industry find cell phones harmful to humans.

Over 80% of studies NOT funded by industry find cell phones harmful to humans.

This is a “manifestly unacceptable situation pointing to *CONFLICTS OF INTEREST* which undermine the integrity, the genuine independence and the objectivity of scientific research.”

2012 – Conflict of interest?

Dr. Henry Lai, a University of Washington scientist in cellular and molecular engineering, who reviewed 85 papers on the DNA-damaging effects of the type of EMR from cell phones found:

- 75% of studies funded by the wireless industry or the military showed no genotoxic effects,
- 80% of studies done by independent scientists showed harmful effects.

2012 - Fragility of Human Brain

The levels of RFR needed to affect the blood-brain-barrier have been shown to be as low as 0.001 W/kg, or less than holding a mobile phone at arm's length. The US FCC standard is 1.6 W/kg; the ICNIRP standard is 2 W/kg of energy (SAR) into brain tissue from cell/cordless phone use. Thus, BBB effects occur at about 1000 times lower RFR exposure levels than the US and ICNIRP limits allow.

2012 - Brain Cancers and Other Central Nervous System Disorders

Brain tumors increased 50% in the UK between 1999 and 2009; brain cancers in children have increased 1-2% annually. Also, in 2012, the Danish Cancer Society reported a doubling in aggressive brain cancer in men over the last 10 years. That is in addition to an epidemic of autism, ADHD and Alzheimer's.

Cell Phone Towers/Masts

Why are cell towers so dangerous?

- Because of the constant pulsed radio frequency radiation, which has been shown in thousands of studies to cause biological damage to the body and is a precursor to diseases (besides cancer) such as:
 - Genetic mutations
 - Memory disruptions
 - Hindered learning
 - ADD
 - Insomnia
 - Brain disorders
 - Hormonal imbalances
 - Infertility
 - Dementia
 - Heart complications

2011 - Council of Europe (47 countries – 800 million people)

Committee called for ban of cell phones and Wi-Fi in all schools ... immediate action is required to protect children ... it's crucial to avoid repeating mistakes concerning the dangers of asbestos, tobacco and lead. **[Yet Canada refuses to heed these 47 countries!]**

2011 - Canadians perilously overexposed to EMR

In Ontario's Simcoe County, children in at least 14 schools have become ill since the schools installed Wi-Fi, beginning in 2006, with symptoms of – speeding heart rate, fatigue, headaches. Two children have “had cardiac arrests” and are on heart medication. “Now every school in Simcoe County has its own defibrillator, as though teenage heart attacks are normal.”

2012 - Teachers call to BAN Wi-Fi in Ontario schools.

Ontario's English Catholic Teacher's Assn. (45,000 teachers) wants to ban new Wi-Fi installations in the province's 1,400-plus Catholic schools and wants computers in all new schools to be hard-wired.

2012 - Wi-Fi in Schools

“UNICEF’s,” a children’s charity, own research found an 85% increase in *central nervous system disorders*, a 36 % increase in *epilepsy*, 11 % in *psychiatric problems*, 82 % in *blood / immune disorders* in children and *risk to the fetus.*“

2012 – “Concrete evidence EMR causes cancer”

Dr Annie Sasco, PhD. who worked 22 years in W.H.O.'s International Agency for Research in Cancer (IARC), including nine as Group Leader, then was Unit Chief of Epidemiology for Cancer Prevention said: “Despite the voices of industry-funded scientists saying otherwise there is concrete evidence that mobiles/cellphones and wi-fi cause cancer in humans.”

Smart Meters vs Cell Phones

Electric Utilities say: “On average, a meter transmits customer data 4 to 6 times a day, for a total average of one minute per day.”

Pacific Gas & Electric admitted in a California Court of Law that meters pulse on average **14,000 times/day** to a max of **190,000/day**.

www.emfsafetynetwork.org/?page_id=872

Who is telling the truth?

San Diego Gas and Electric Company (SDGE) responded to an Administrative Judge's enquiry that smart meters installed by SDGE transmit messages on average 1270 times/day and at a maximum 25,920 times/day.

admin@americanpolicy.org americanpolicy.org (540) 341-8911

Utility tells the truth

Silver Spring Networks also admitted Smart Meters are transmitting continuously 24/7. Even though they only upload customer data 6 times/day to PG&E, they are continuously 'chatting' with each other 24/7 every few seconds in order to authenticate and keep the network synchronized.

What Utilities Don't Tell You

Each Smart Meter contains two (2) Transmitters:

- 1) LAN – range 3 Km
- 2) ZigBee – range 250'

Meshed-grid communities will comprise:

From 500 to 5,000 homes

Each home having 15-or-so “Smart” appliances

Each appliance has its own 2.4 GHz Transmitter

Collector Meter has 3-8 Transmitters:

- 1) LAN
- 2) ZigBee
- 3) WWAN – 850/1900 MHz

How a “Meshed-grid” Works

Community of 500 homes has 500 Smart Meters = 1,000 transmitters (i.e., 500 LAN and 500 “ZigBee”) !

15 ‘smart’ appliances per home= 7,500 transceivers – all operating on microwave oven frequency: 2.4 GHz!

All homes will endure many, up to hundreds of relays on every transmission - in BOTH directions!

All 8,500+ Tx/Rx in community emit pulsed M/W radiation – 8,001 on same M/W oven freq. of 2.4 GHz!

Reflected radiation & ‘Hot Spots’

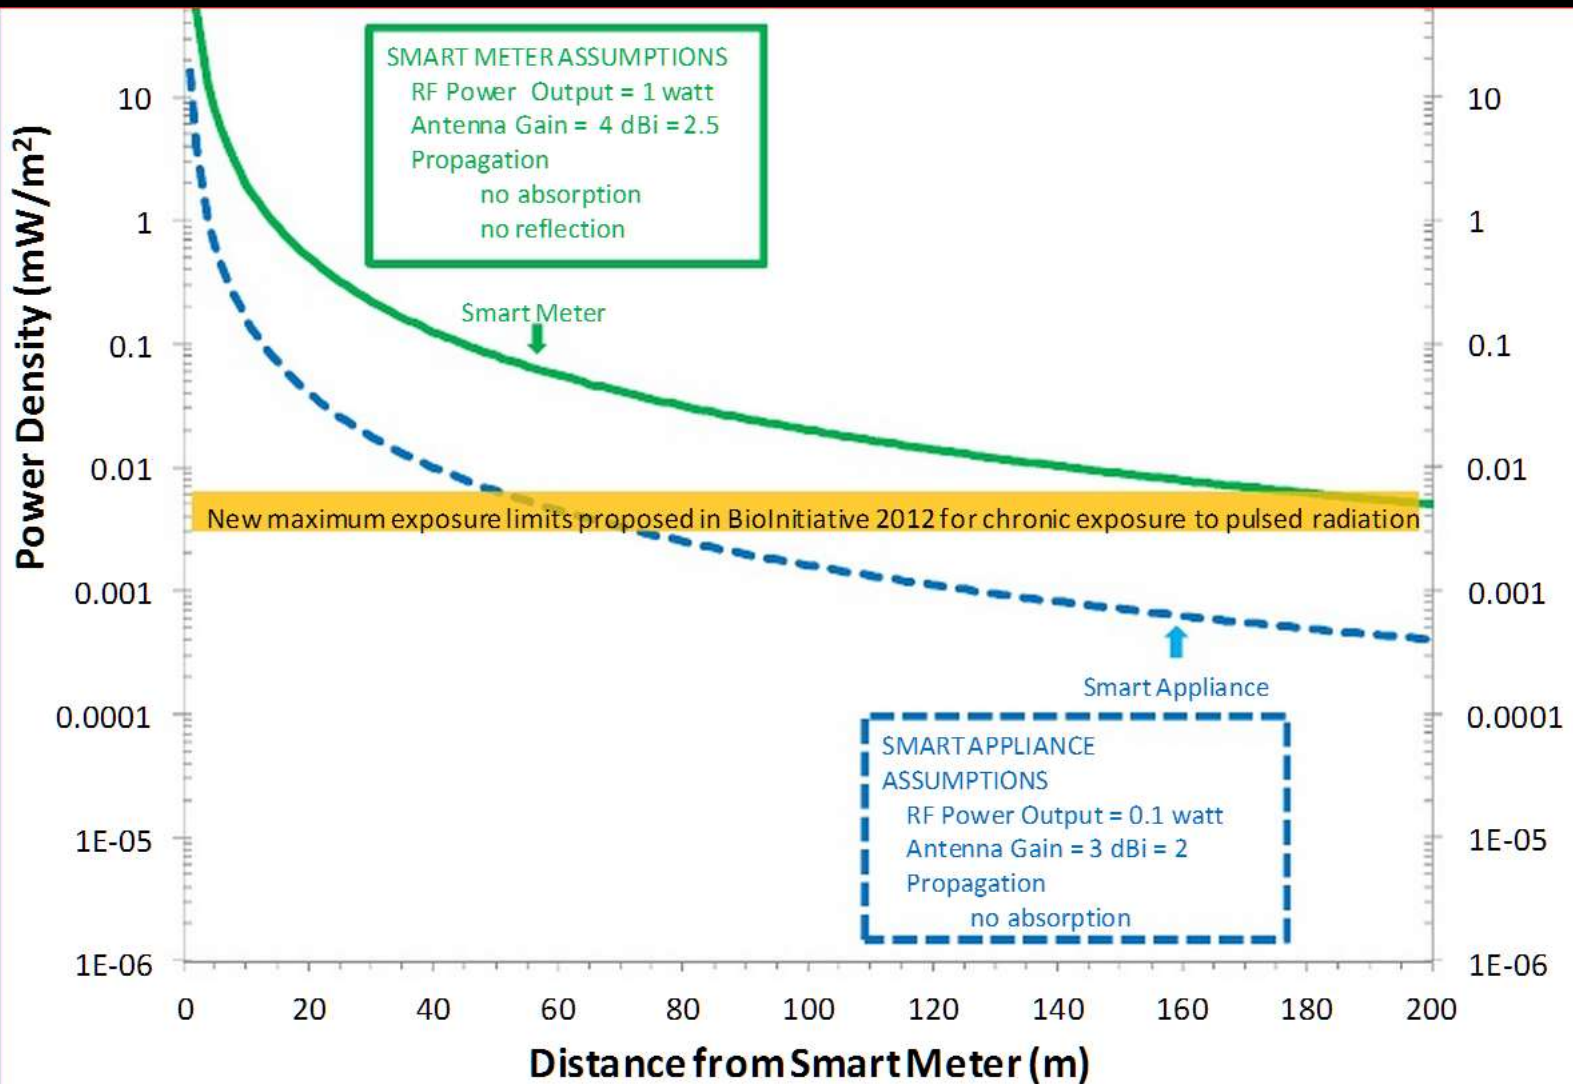

All of the above incalculable amount of EMR is on top of the ambient level of EMR already in your community!

One Smart Meter

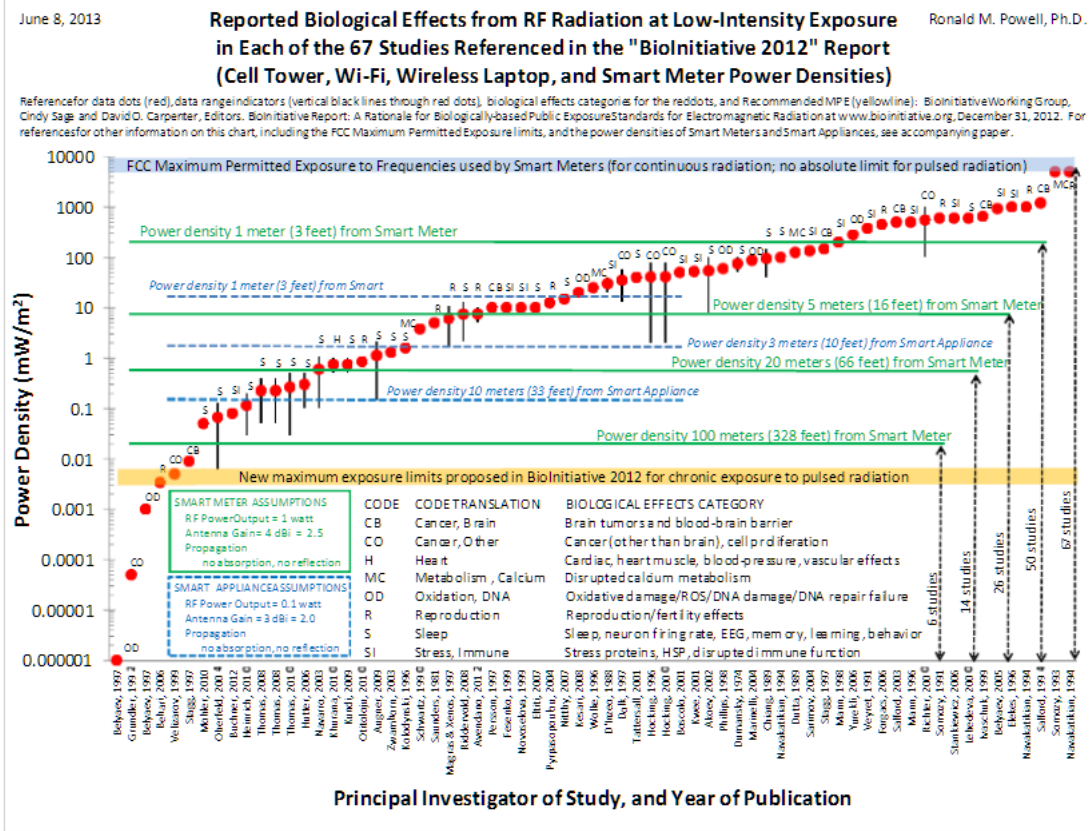

Can produce RF exposure levels that caused the biological effects found in either most or many of the 67 studies, depending on the distance from the Smart Meter

Radiation Distances

Biological Effects of Low-Level EMR

WWW.BioInitiativeReport-2012 Explained by Ronald M. Powell, Ph.D. (App. Phys. Harvard U. 1975)

“Smart” Appliances

‘Smart’ appliances emit pulsed microwave signals at a power density of 100 mW and utilities envisage **15 appliances** in a typical home. None of this 2.4 GHz *radiation* exists in your home now!

<http://www.eeherald.com/section/news/nws201206102.html>

“Smart” Appliances

A single Smart Appliance in the home can produce RF exposure levels that caused the biological effects found in nearly half or fewer of the 67 studies, depending on the distance from the Smart Appliance. Multiple Smart Appliances in a home multiply the total exposure.

(BioInitiative Report 2012, explained by Ronald M. Powell, Ph.D.
App. Physics, Harvard U., 1975)

A Neighbor's Smart Meter

A Smart Meter on a nearest neighbor's home can produce RF levels that caused the biological effects found in many of the 67 studies. A given home may have 1 to 8 nearest neighbors, each with a Smart Meter, multiplying the total exposure in the given home.

(BioInitiative Report 2012, explained by Ronald M. Powell, Ph.D.
App. Physics, Harvard U., 1975)

Radiation in Your Home

Smart Meters and Smart Appliances operate in the same frequency ranges as cell phones. Further, Smart Meters have twice the RF power output of the typical cell phone, as shown in the table below, and will be transmitting day and night. Emerging Smart Appliances will likely have about one-fifth the RF power output of the typical cell phone. But a given home may have several Smart Appliances; and they, too, will be transmitting day and night.

Device	RF Power Output				
Smart Meter ⁴²	1.115	watts	which is	1115	milliwatts
Typical leakage from a microwave oven ⁴³	1	watt	which is	1000	milliwatts
Typical cell phone ⁴³	0.5	watt	which is	500	milliwatts
Wireless LAN (802.11a) ⁴³	0.251	watt	which is	251	milliwatts
Wireless LAN (802.11n) ⁴³	0.250	watt	which is	250	milliwatts
Cordless phone ⁴⁴	0.230	watt	which is	230	milliwatts
Smart Appliance ⁴⁵	0.100	watt	which is	100	milliwatts
Wireless LAN (802.11 b, g) ⁴³	0.100	watt	which is	100	milliwatts
Typical laptop wireless LAN (Wi-Fi) ⁴³	0.032	watt	which is	32	milliwatts

A Final Note

The Smart Meter is the first source of RF exposure that is mandated for installation in every home in an entire region without the informed consent, or any consent, of the residents, and that is not under the control of the residents.

(BioInitiative Report 2012, explained by Ronald M. Powell, Ph.D. App. Physics, Harvard U., 1975)

Electric Utilities Say:

Smart Meters will help keep rates lower ... and lower meter reading costs.

FACTS:

- CBC Survey of Toronto found monthly bills doubled, tripled & even **quadrupled**;
- >80% customers experienced higher bills!
- Analogue meters cost **\$50** & last 30-50 yrs
- Smart Meters cost **<\$500** & last <8 to 12 yrs
- Smart Meters have caused countless fires
- Electric Utilities refuse to accept financial responsibility for SM-attributed fires.

Trojan Horse – “SMPS”

Smart Meters have a ***Switched Mode Power Supply (SMPS)*** to convert 110/220V AC to low voltage DC power, which constantly creates powerful spikes of **EMF and RF -- “dirty” electricity** -- as the meter switches back and forth from AC to DC. This gets on house wiring, couples to water and gas pipes, travels into other buildings, and travels on and radiates from power lines.

No communications technology is more vulnerable or more defenseless than a wireless radio system (Jerry Flynn)

Enemies:

Solar storms, solar flares & severe lightning storms; ECM and/or signal jamming by malcontents, organized criminals, terrorists, hostile nations, electronic warfare weapons, e.g., HAARP and EMPs, cyber attacks, etc. (Jerry Flynn)

Silver Spring Launches Cloud Service to Share Smart Grid Data

The latest smart grid cloud brings Silver Spring's smart grid data to more people in the utility besides "power users."

SOLAR STORMS: NASA WARNING

NASA Warns of coming “Super Solar Storms – could wipe out entire U.S. power grid and end Life as we know it. Transformers will short circuit and burn out; satellites will be destroyed. This could be worse than the 1859 humungous storm. Will set country back for months to years”

2012 – CyberSecurity

Telvent (Spain), maker of industrial control systems for smart grid networks admitted last week hackers had breached its network and accessed project files related to a control system used in portions of the electrical grid. Owned by Schneider Electric (France), Telvent told customers attackers installed malicious software on its network and accessed project files for its OASyS SCADA system, according to KrebsOnSecurity, which first reported the breach

2012 - U.S. Defense Secretary Leon Panetta

“An aggressor nation or extremist group could gain control of critical switches and derail passenger trains, or trains loaded with lethal chemicals. They could contaminate the water supply in major cities, or shut down the power grid across large parts of the country,” he said.

2012 - Former U.S. C.I.A. Director James Woolsey

“The utilities don’t want to talk about this but 17 of our (USA’s) 18 national critical infrastructure sectors depend on electricity, including our power grid and all but one of our military bases. If the grid goes down – we don’t even want to think about it. We’re so vulnerable to cyberattack and any number of other threats.”

2013 - Pentagon's own 'Cyberattack' Teams to Strike Across the World

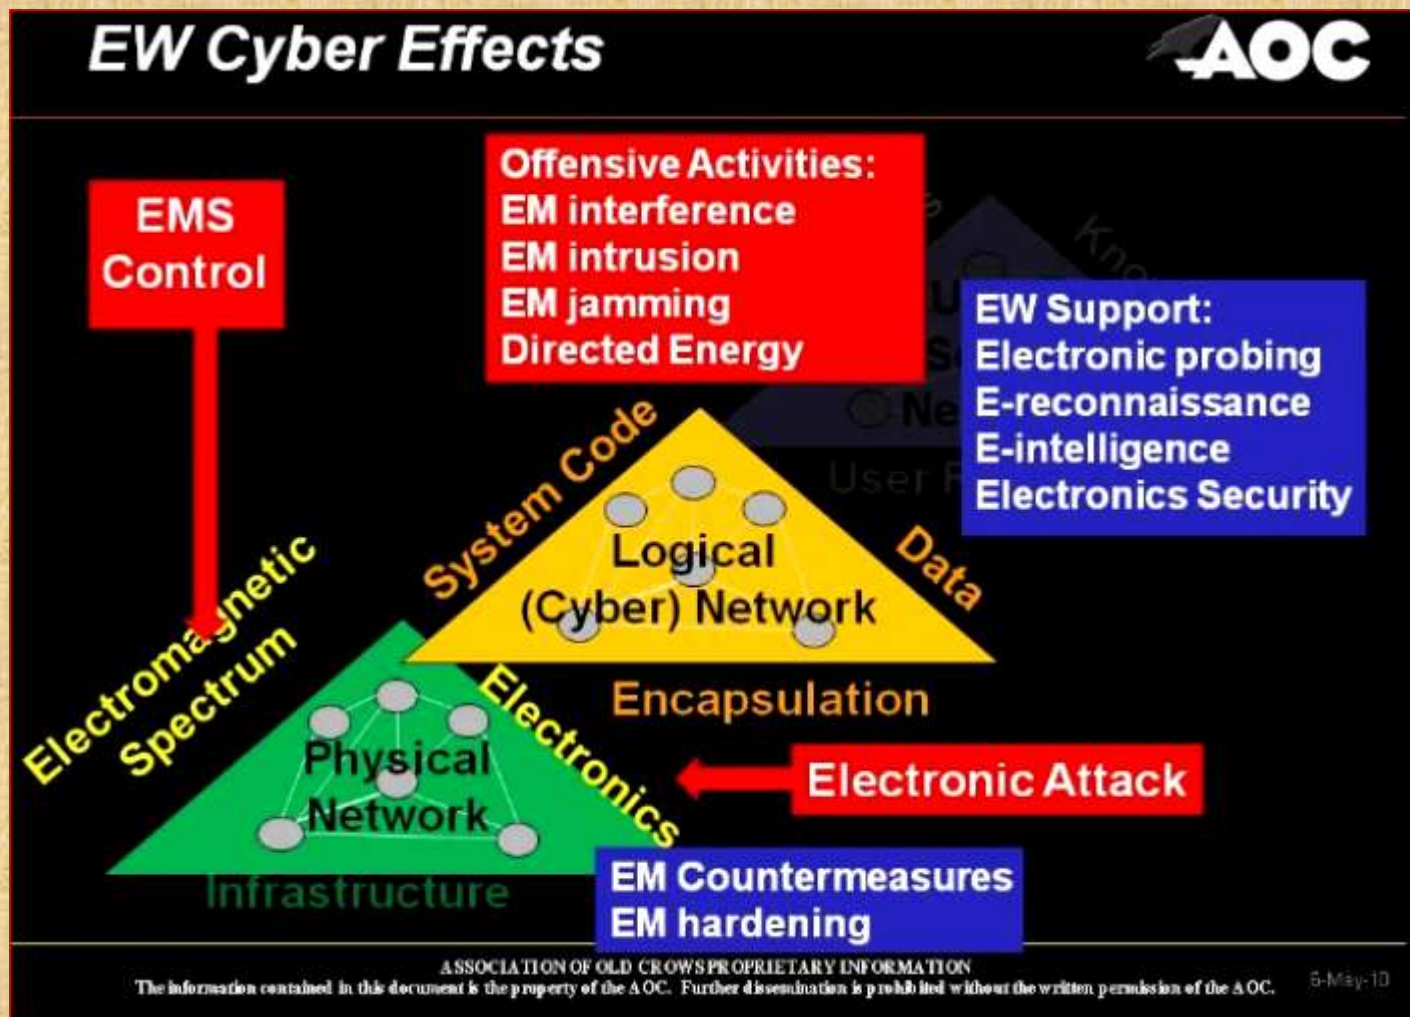

March 13, 2013. Cyber Command chief General Keith Alexander revealed in a Senate hearing the creation of 13 “cyberattack” teams, which he dubbed part of the “cyber cadre,” that are authorized to engage in preemptive cyberwarfare across the planet. (by Jason Ditz)

2013 - Attack on PG & E

A sniper attack knocked out 17 transformers at a California power station raising concern for country's power grid. Large high-voltage transformers take from months to years to build. A surprisingly small number of U.S. substations knocked out at once could cause a blackout encompassing most of the U.S.!

High Powered Advanced Missile
Counter Electronics Weapon, can knock
out a country's **entire** electric grid!

Non-Lethal: No harm to people or
structures.

EW Weapon – USA

“HARM”””

The anti-radiation missile is a smokeless, rocket-propelled missile that destroys radar-equipped defense systems

The AGM-88 HARM (High-speed anti-radiation missile) is used throughout the Air Force for suppressing surface-to-air radar warning systems.

Anti-radiation missiles help neutralize hostile airspaces and take out the enemy's ability to defend itself in advance.

The Air Force said, "Coalition forces in Operation Desert Storm operated 'at will' over Iraq and Kuwait after gaining control of the EM spectrum early in the war."

Boeing has test-flown a nonlethal missile that fries electronics while minimizing collateral damage (like civilian deaths). You can read about CHAMP [here](#).

“Heat Ray”

America's Scariest Electronic Weapons

Controlling the electromagnetic (EM) spectrum is a major asset in military operations.

The Marines recently demonstrated their painful “heat ray,” a weapon that blasts intruders with a wave beam that targets skin and makes victims feel like they’ve stepped in front of a blazing oven, but without killing them.

[See the gear >](#)

It doesn't cause irreversible damage, but will make someone instinctively back off.

Modern weapons systems employ radio, radar, infrared, optical, ultraviolet, electro-optical, and laser technologies.

“Heat Ray”

The Marine Corps "Heat Ray" raises the temperature of skin by 130 degrees

But it won't kill you. The Active Denial System (ADS) creates an intense heated sensation lasting 1-2 seconds and is caused by a radio frequency wave, not radiation or microwave.

Sgt. Maj. of the USMC Micheal P. Barrett ran for it after feeling the ADS.
Marines/Daniel Wetzel

"You're not going to see it, you're not going to hear

it, you're not going to smell it. You're going to feel it," said director of the Joint Non-Lethal Weapons Directorate, Marine Col. Tracy Tafolla.

The 95 GHz millimeter wave has a range of up to 1000 meters, or 7 football fields. The directed-energy beam only penetrates 1/64th of an inch into the skin.

As a nonlethal weapon, it can be used for crowd control or determining hostile intent before engaging with lethal weapons. ADS can buy life-saving time.

2014 – “HAARP”

USA's EW Weapon of Mass Destruction

High Frequency Active Auroral Research Program Weapon ... is a weapon of mass destruction. Radio Waves strong enough to cause earthquakes are controlled by the U.S. military. It's the largest ionospheric heater ... some believe, no less than governmental control over the earth's weather and its tectonic plates.

NORTH KOREA's last round of tests, conducted in May 2009, appear to have included a "super-EMP" weapon, capable of emitting enough gamma rays to **disable the electric power grid across most of the lower 48 states.**

CHINA

Electronic Warfare & Cyber Warfare

The PLA (Peoples' Liberation Army) has developed a doctrine of *"Integrated Network Electronic Warfare,"* similar to the Soviet concept of Radio Electronic Combat, with the goal of degrading the enemy through **EW**, **cyber**, and **space warfare** before a shot is fired. The Chinese hacking threat is so common that the security industry has a new euphemism for the country, an "Advanced Persistent Threat."

CONCLUSION

Scientific evidence leaves no doubt that EMR poses the biggest single threat to humans and all other life forms in Canada's entire history and, in the case of Smart Meters, to our personal privacy and safety, and to our country's National Security! Governments must be made to divorce themselves from industry and instead protect the public. But this will not happen unless **YOU** STAND UP and SPEAK OUT!
